

Quantity Discount Order Form

Inventory Accuracy: People Processes, & Technology

Quantity Discounts

Quantity	Price Each
10-24	\$35.00
25 +	\$32.50

Terms:

Quantity discounts are available directly from the author to retail customers, organizations, or businesses located within the United States. Quantity discount orders are only available as **Cash-with-Order** purchases.

Shipping is no charge via surface freight

Shipments to Wisconsin must include appropriate sales tax

Returns policy for quantity discount orders:

Returns are accepted for full credit provided the following terms are met:

Return is pre-authorized

Return is made within 30 days of purchase.

Books are returned in unused, unblemished condition with freight prepaid.

Net purchased quantity (quantity initially ordered minus quantity returned) does not fall below the discount quantity break. If the net purchased quantity does fall into a lower quantity discount, only the difference between the initial amount paid and the total cost of the net purchased quantity at the lower discount will be refunded. For example, if you ordered 30 books at \$32.50 and then returned 10 books, your order would be recalculated as 20 books at \$35.00 (the lower price break) and you would receive a refund of only \$275 (\$975-\$700). If the net purchased quantity drops below 10 units, you will be charged the single unit price.
